

1. School Management System / ERP

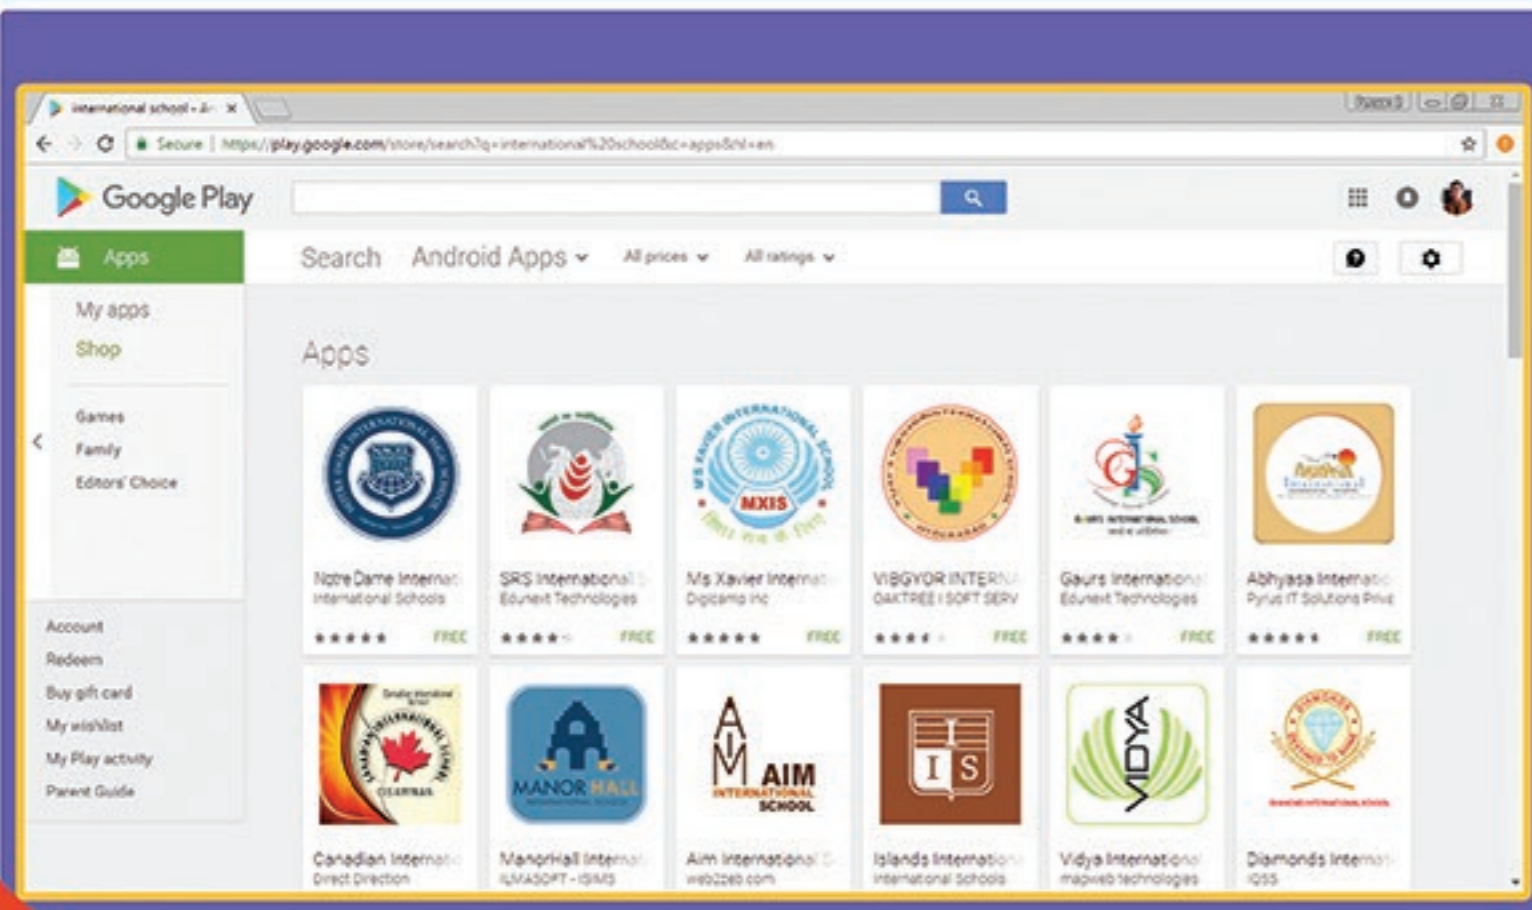

Generate Mark sheets, Attendance sheets, and Manage Fee and Fee receipts, Send SMS about attendance, Marks, Notifications, fee reminders

2. Dynamic web site of your school

(Schools can Edit update content themselves i.e. Image gallery, Notifications, other details. Web site is Responsive, means it is displayed in all the devices perfectly)

3. APP

(App on your school Name will be placed in Google Play store)
(Whatever you update in Website, App will be)

- We build a dynamic website for you. We will offer you 3 templates to choose and based on your selection, we will build you responsive dynamic website.
- We will give you an empty word template, where, you need to fill in your schools details/ details to be published in web site, and send back to us. Our HTML 5 team will develop responsive website and share you URL details.
- URL WILL BE - www.DT.YourSchoolName.edu
- By default your account will be charged with 50,000 SMS balance. Once SMS balance is consumed by you, you can recharge SMS balance by paying extra amount.
- You can monitor and track the SMS balances in School Management Software.
- School Management software can also be accessed using mobile phone.
- We will also develop an App on your school name and place in Google Play store.
